FIRECODE:

Class A Fire Rating, ASTM E84-16

This product is intended for use in buildings that are properly designed and maintained to avoid moisture infiltration, condensation and/or accumulation at wall cavities and wall surfaces, particularly in warm, humid climates.

WEIGHTS:

7 to 15 ounces per square yard

DURABILITY:

Contract (Light Traffic / Light Duty), Residential

DESIGN INSPIRATION:

Agate is inspired by the extraordinary beauty hidden within the earth's natural formations. Fascinated by the way pressure, time, and mineral movement create swirling bands of color and organic depth, Nicolette Mayer reimagines these geological wonders through an artistic and elevated lens. Influenced by a deep appreciation for the natural sciences and the poetry of nature's imperfections, the pattern transforms stone into something glamorous, expressive, and unexpected. Rather than replicating nature literally, Agate explores imaginative colorations and dreamlike tonal combinations that feel both luxurious and emotional — rich mineral hues layered with fluid movement and luminous depth. The result is a pattern that feels sophisticated, modern, and endlessly captivating, bringing the elegance of natural formations into interiors with a bold yet refined sense of artistry.
